TERMS.

All bills not paid when ordered will be sent C. O. D. unless otherwise agreed upon. In no case do we give TIME on goods. Accounts subject to sight draft after the 15th of the following month. All money must be sent free of expense to us.

BOSTON, April, 1883.

Dear Sir,—

Once more we submit our Catalogue for your attention, feeling sure that a careful examination by you will prove of benefit both to yourself and us.

We would ask you to notice that, in accordance with the request of many of our patrons, we have this year included in our list of illustrations, not only our Stair-work as before, but also Brackets, Balustrades &c., of which we have a great variety.

Also please note the Advertisements of reliable houses, of such goods as you often require.

Thanking you for past favors, and with the determination to satisfy in future.

We remain,

Yours respectfully,

J. W. BAILEY & SON.

WE would call your attention to our large stock of Mouldings of the best quality, which we are selling as low as is possible for first quality goods.

In our stock of Pine Mouldings you will find everything that is in general use for building and jobbing purposes. We also have a large assortment in Black Walnut and Ash for Cabinet Makers and Jobbers. We would call your attention to the fact that we can furnish Mouldings to order of any pattern desired at short notice.

Below we give a few prices of Soft and Hard Wood Mouldings per running foot :—

Soft Pine	. . . .	1	cent an inch
Hard Pine	. . , .	1	" "
White Wood	. . . .	1	" "
Ash	. . . . .	$1\frac{1}{2}$	" "

WHOLESALE & RETAIL AGENTS

FOR THE PATENT

Marbleoid Shelves.

These Shelves are made of hard wood; and under a patent process are marbled or enameled, giving a highly polished surface that cannot be distinguished from the most beautiful foreign marbles. They have the advantage over marble in various ways such as the following:

They will not spot or stain from kerosene oils or acids.
They are less likely to damage by transportation.
They can be screwed to brackets, thus securing them firmly.
They are much less in weight.
The price is much less than of the Marbleized Slate, and no one can give any reason why they are not in every respect as good, and in many respects much better, some of which you will see as above.

American and Italian

MARBLE SHELVES

Constantly on hand, in lengths of 3 ft., 3½ ft., and 4 ft.

Stair-work Department.

In placing these goods before you again, we would say that we have added a number of new styles of Built Newels; and you will see by our cuts that we have omitted the style of Rail and Balusters that we do not have on hand; but we have an assortment of patterns at store, of which we can furnish at short notice. We are prepared to furnish Posts, Rails and Balusters to architect s designs in any kind of wood desired.

We fill orders promptly on Stair work, making the Turns, Ease-offs, Ramps &c., warranting them to fit according to order given.

On the following page you will find a few directions to be carefully followed in ordering.

DIRECTIONS.

1. Give number and sizes of Newel Post, Rail, and Balusters: what Frame-post is wanted, if any. It would be well, when ordering, to give a sketch or drawing of stairs.

2. In ordering give us the exact rise and run of your stringer as sawed in the rough.

3. Give number of *Risers* instead of number of steps.

4. Length of Rail on gallery, measuring from face of gallery board, we allowing for all projections of nosings.

5. If the stairs are straight, with a continued rail, at landing, state how much the well-hole sets in back of the face of the top riser, giving the radius of well-hole; and if landing post is to be used, state if well-hole is square, if not give the radius.

6. If the stairs are circular, make a diagram, and give the exact width of each step on face stringer, as sawed, giving size of well-hole.

7. In all cases state whether the Rail is on right or left hand going up stairs, and which is wanted, Straight or Side Ease.

Keep this Catalogue safely, so that it can be found when you wish to order.

We have a full line of

STAIR-BUILDERS' SUPPLIES,

As will be seen by the following pages; and in addition to them we have many things, such as

RAIL BRACKETS.
